**CENTRAL
AVENUE
IMPROVEMENTS**

Road Construction Alert Effective April 27, 2022

DUKE ENERGY WORK TO IMPACT TRAVEL ON CENTRAL AVE.

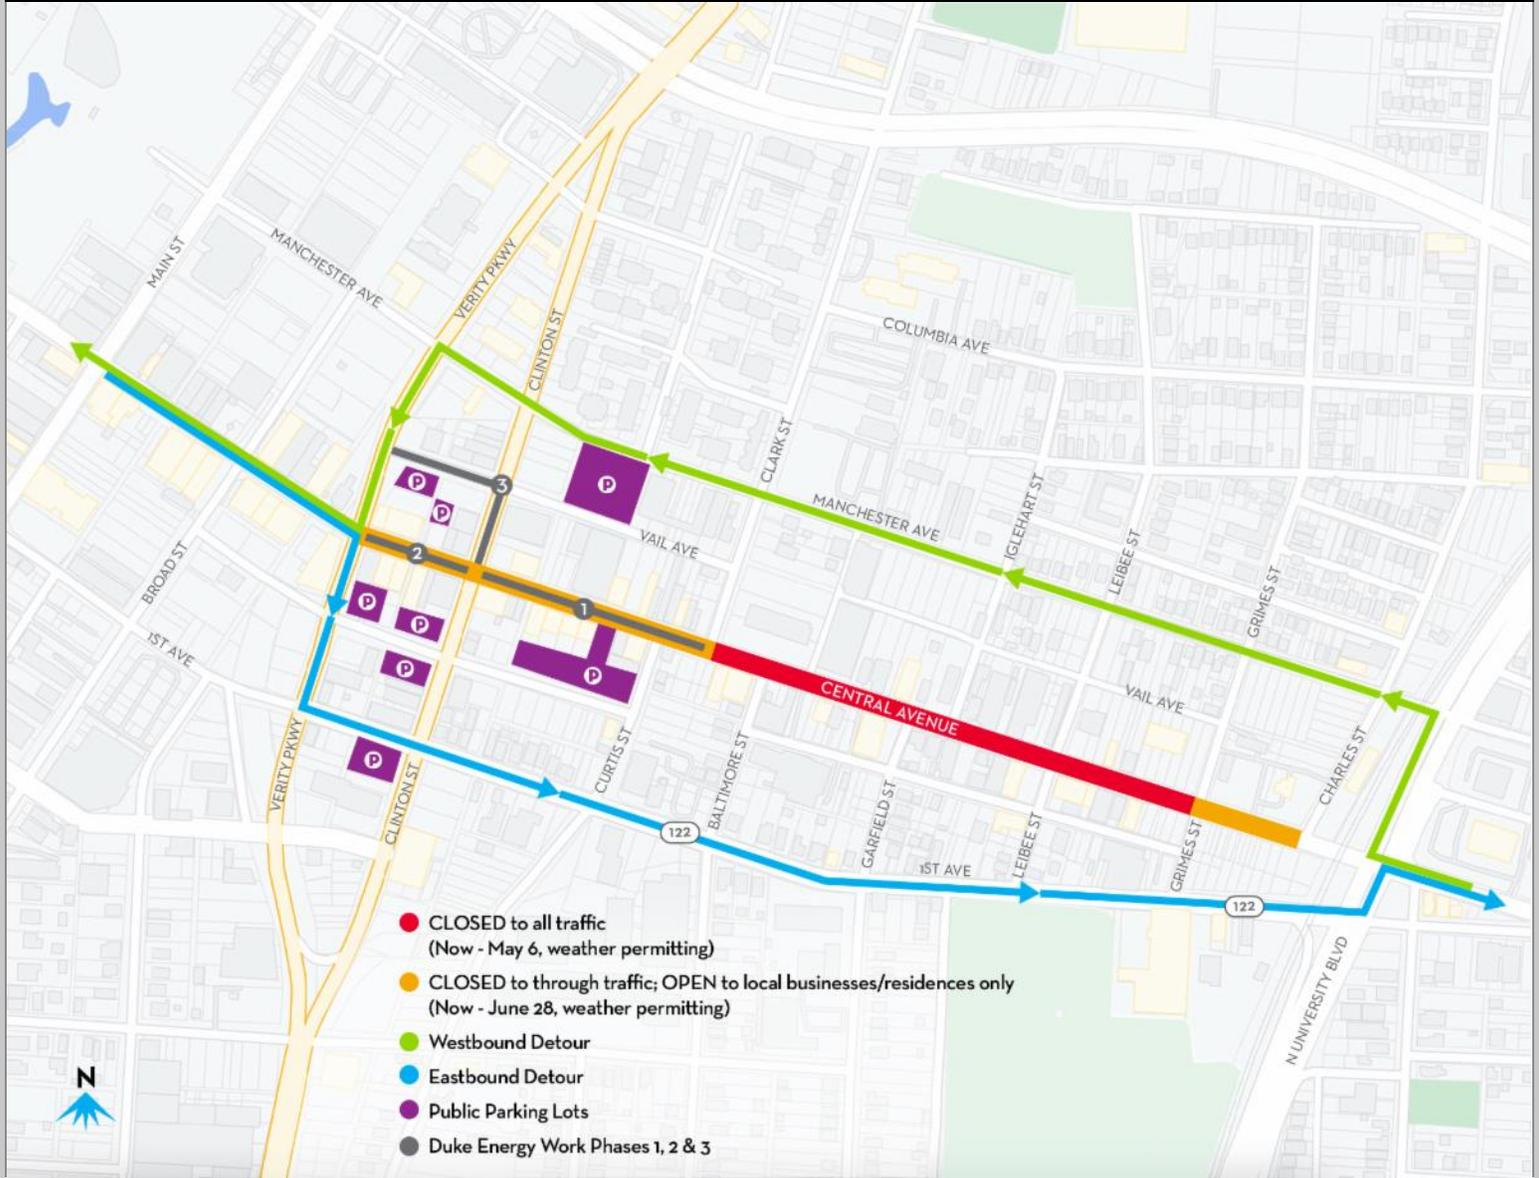

Beginning today, for approximately the next four weeks, weather permitting, Duke Energy will be working on sections of Central Avenue to move utility lines as part of the Central Avenue Improvement Project. Travel will be reduced to one lane during each phase of utility work, with flaggers in the roadway to maintain local two-way travel. Through traffic should continue to follow the detours shown below.

Public parking remains available behind most buildings during this time; street parking will be closed on the blocks identified below during each phase while Duke is working.

Duke Energy crews will be working to move utilities on Central Avenue in the following phases:

- **Phase 1:** Clark Street moving west to Clinton Street. Crews will begin on the north side of the street with traffic redirected to the southern lane; then, crews will move to the south side of the street and redirect traffic to the north side.
- **Phase 2:** Clinton Street moving west to Verity Parkway. Again, crews will begin on the north side of the street, then proceed to the southern side of the street.
- **Phase 3:** Central Avenue moving north on Vail Avenue, and then west to Verity Parkway.

Impacts To Travel

ANTICIPATED SCHEDULE FOR UTILITY WORK (weather permitting)

- Duke Energy Work Phase 1 - April 27-May 11
- Duke Energy Work Phase 2 - May 11-18
- Duke Energy Work Phase 3 - May 18-25

The Central Avenue Improvements Project will make a generational transformation in the city’s historic downtown district by revitalizing a key section of Central Avenue within the city’s urban core. The project will modernize outdated infrastructure that will help attract and retain businesses and benefit residents and visitors of the downtown area for years to come.
